COST PER PUPIL BY DISTRICT, 1987-88

The following costs per pupil are based on current expenditures as reported on each district's Annual Financial Report (MS-25) for 1987-88. Current expenses represent operating costs which do NOT include tuition, transportation, capital expenditures or debt service expenditures. Also, any food service revenue is deducted from current expenditures before dividing by last year's ADM in attendance.

RSAs 193:4 and 194:27 provide for use of a receiving district's cost per pupil plus 2% of capital outlay as a tuition rate for districts without tuition contracts for the school year 1988-89. The cost per pupil for all school districts operating schools and the state average are as follows:

*Denotes Middle School

NOTE: The above per pupil costs for instructional organizations (elementary, middle/junior, and high school) will reflect reality to the extent of the accuracy with which district expenditures were assigned to each level. When comparing costs of one school district with costs of another school district, or when comparing year to year costs within the same district, the K-12 cost is the most reliable figure to use.
Also note, the above high school costs per pupil have been adjusted for part-time vocational-technical students.
